**SEM Committee Decision for the Regulatory Authorities in relation to Mod_06_09
(Recommendation Report FRR_06_09)**

Dear Marie-Therese,

On 5 May 2009, the Modifications Committee submitted its Modification Recommendation Report with regard to a Modification Proposal, Mod_06_09 (Queries by External Data Providers), in accordance with paragraph 2.231 of the SEM Trading and Settlement Code (the Code).

This Modification Proposal, raised by the System Operators, seeks to define a new class of Party and to give such Parties the right to raise queries on metered data of all sorts. The class of Parties includes all those who may be responsible for the collection of meter data in respect of either Generator Units or Supplier Units.

The SEM Committee notes that the Modifications Committee determines that this modification will better facilitate the Code Objective 'to facilitate the efficient, economic and coordinated operation, administration and development of the Single Electricity Market in a financially secure manner' and that it voted unanimously to recommend the modification to the Regulatory Authorities (RAs). The SEM Committee further notes that the Modifications Committee recommends that Mod_06_09 should be implemented on a Settlement Day basis on the next Working Day after the decision is made.

Considering the above, and in accordance with paragraph 2.218 of the Code, the SEM Committee decides that a modification be made in accordance with the Final Recommendation Report of the Modifications Committee (FRR_06_09), for the avoidance of doubt, based upon the legal drafting set out in Appendix 2 of that report. The Regulatory Authorities therefore direct that the modification as set out in FRR_06_09 be made on a Settlement Day basis with effect from the next Working Day after the date of this letter.

Yours sincerely,
