**SEM Committee Decision for the Regulatory Authorities in relation to Mod_14_12
(Recommendation Report FRR_14_12_V1.0)**

Dear Sherine,

On 28th August 2012, the Modifications Committee submitted its Modification Recommendation Report with regard to a Modification Proposal, Mod_14_12 (Reference to MO Status for VTOD), in accordance with paragraph 2.213 of the SEM Trading and Settlement Code (the Code).

This Modification Proposal, which was raised by the TSOs, proposes to ensure that all steps which must take place in order for a submitted Validation Data Set to be approved in the SEM systems are documented in the Code, and that the responsibilities of the relevant parties are outlined.

The SEM Committee notes that the Modifications Committee agreed unanimously that the Modification Proposal furthers the Code Objectives “to facilitate the efficient, economic and coordinated operation, administration and development of the Single Electricity Market in a financially secure manner”. The Modifications Committee also recommended that the Modification Proposal should be made effective on a Trading Day basis, one Working Day after the Regulatory Authority decision is made.

The SEM Committee agrees with the recommendation of the Modifications Committee that this approval process should be documented in the Code. Considering the above, the SEM Committee directs that a Modification, as set out in Appendix 1 of FRR_14_12_V1.0, be made on a Trading Day basis with effect from one Working Day after the date of this letter.

Yours sincerely,

Sheenagh Rooney
Manager - Wholesale Electricity Market
