**SEM Committee Decision for the Regulatory Authorities in relation to Mod_44_09
(Recommendation Report FRR_44_09)**

Dear Stephanie,

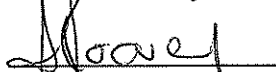

On 14th January 2010, the Modifications Committee submitted its Modification Recommendation Report with regard to a Modification Proposal, Mod_44_09 (Process for Withdrawal of Modification Proposals) in accordance with paragraph 2.213 of the SEM Trading and Settlement Code (the Code).

This Modification Proposal, raised by the Secretariat of the Modifications Committee, seeks to clarify the process for withdrawing Modification Proposals.

The SEM Committee notes that the Modifications Committee believes that the Modification Proposal furthers the Code Objectives 'to facilitate the efficient, economic and coordinated operation, administration and development of the Single Electricity Market in a financially secure manner' and 'to provide transparency in the operation of the Single Electricity Market' and voted unanimously to recommend the Modification Proposal to the Regulatory Authorities. The Modifications Committee also recommends that Mod_44_09 should be implemented on a Trading Day basis on the next Working Day after the decision is made.

Considering the above, and in accordance with paragraph 2.218 of the Code, the SEM Committee decides that a modification be made in accordance with the Final Recommendation Report of the Modifications Committee (FRR_44_09), for the avoidance of doubt, based upon the legal drafting set out in Section 10 of that report. The Regulatory Authorities therefore direct that the Modification, as set out in FRR_44_09, be made on a Trading Day basis with effect from the next Working Day after the date of this letter.

Yours sincerely,

Sheenagh Rooney
Manager – Wholesale Electricity Market
