<b>Explanation of Proposed Change</b> <i>(mandatory by originator)</i>			
<p>This proposed change seeks to address a typographical error introduced by <a href="#">CMC 01_22 on New Interdependent Combined Units</a>.</p> <p>The legal drafting introduced a newly defined term of 'Capacity Aggregation Threshold' which <i>'means the value determined by the Regulatory Authorities for a Capacity Auction as set out in D.2.1.3 which defines the maximum size of Candidate Unit which can be aggregated under E.7.6.1(i)(i). If no value is determined by the Regulatory Authorities for a Capacity Auction, it shall be set equal to the De Minimis Threshold'</i>.</p> <p>The definition incorrectly refers to paragraph D.2.1.3 which addresses Capacity Auction timeframes. D.3.1.3 addresses Auction parameters and is the correct reference:</p> <p>D.3.1.3</p> <p><i>The Regulatory Authorities shall determine the following parameters for each Capacity Auction and provide them to the System Operators for inclusion in the applicable Initial Auction Information Pack.....</i></p> <p>(o) <i>the final Capacity Aggregation Threshold for the Capacity Auction.</i></p>			
<b>Legal Drafting Change</b> <i>(Clearly show proposed code change using <b>tracked</b> changes, if proposer fails to identify changes, please indicate best estimate of potential changes)</i>			
<b>Capacity Aggregation Threshold</b>	means the value determined by the Regulatory Authorities for a Capacity Auction as set out in D. <del>32</del> .1.3 which defines the maximum size of Candidate Unit which can be aggregated under E.7.6.1(i)(i). If no value is determined by the Regulatory Authorities for a Capacity Auction, it shall be set equal to the De Minimis Threshold.		
<b>Code Objectives Furthered</b> <i>(State the Code Objectives the Proposal furthers, see Sub-Section A.1.2 of the CMC Code Objectives)</i>			

Correcting the typo results in a more accurate Code and supports the Code Objectives including:

A.1.2.1

- (a) to facilitate the efficient discharge by EirGrid and SONI of the obligations imposed by their respective Transmission System Operator Licences in relation to the Capacity Market;
- (c) to facilitate the participation of undertakings including electricity undertakings engaged or seeking to be engaged in the provision of electricity capacity in the Capacity Market;
- (e) to provide transparency in the operation of the SEM;

**Implication of not implementing the Modification Proposal**

*(State the possible outcomes should the Modification Proposal not be implemented)*

The Code will include an obvious error potentially leading to inefficiencies for stakeholders seeking to understand their own and Regulatory Authority obligations.

**Impacts**

*(Indicate the impacts on systems, resources, processes and/or procedures)*

There will be no impacts on systems, resources, processes or procedures by correcting the error.

### Notes on completing Modification Proposal Form:

1. If a person submits a Modification Proposal on behalf of another person, that person who proposes the material of the change should be identified on the Modification Proposal Form as the Modification Proposal Originator.
2. Any person raising a Modification Proposal shall ensure that their proposal is clear and substantiated with the appropriate detail including the way in which it furthers the Code Objectives to enable it to be fully considered by the Regulatory Authorities.
3. Each Modification Proposal will include a draft text of the proposed Modification to the Code unless, if raising a Provisional Modification Proposal whereby legal drafting text is not imperative.
4. For the purposes of this Modification Proposal Form, the following terms shall have the following meanings:

CMC / Code:	means the Capacity Market Code for the Single Electricity Market
Modification Proposal:	means the proposal to modify the Code as set out in the attached form
Derivative Work:	means any text or work which incorporates or contains all or part of the Modification Proposal or any adaptation, abridgement, expansion or other modification of the Modification Proposal

The terms "System Operators" and "Regulatory Authorities" shall have the meanings assigned to those terms in the Code.

In consideration for the right to submit, and have the Modification Proposal assessed in accordance with the terms of Section B.12 of the Code, which I have read and understand, I agree as follows:

1. I hereby grant a worldwide, perpetual, royalty-free, non-exclusive licence:
  - 1.1 to the System Operators and the Regulatory Authorities to publish and/or distribute the Modification Proposal for free and unrestricted access;
  - 1.2 to the Regulatory Authorities to amend, adapt, combine, abridge, expand or otherwise modify the Modification Proposal at their sole discretion for the purpose of developing the Modification Proposal in accordance with the Code;
  - 1.3 to the System Operators and the Regulatory Authorities to incorporate the Modification Proposal into the Code;
  - 1.4 to all Parties to the Code and the Regulatory Authorities to use, reproduce and distribute the Modification Proposal, whether as part of the Code or otherwise, for any purpose arising out of or in connection with the Code.
2. The licences set out in clause 1 shall equally apply to any Derivative Works.
3. I hereby waive in favour of the Parties to the Code and the Regulatory Authorities any and all moral rights I may have arising out of or in connection with the Modification Proposal or any Derivative Works.
4. I hereby warrant that, except where expressly indicated otherwise, I am the owner of the copyright and any other intellectual property and proprietary rights in the Modification Proposal and, where not the owner, I have the requisite permissions to grant the rights set out in this form.
5. I hereby acknowledge that the Modification Proposal may be rejected by the Regulatory Authorities and that there is no guarantee that my Modification Proposal will be incorporated into the Code.
