SEM Committee Decision for the Regulatory Authorities in relation to Mod_05_22 (Final Recommendation FRR_05_22)

Dear Esther,

On 14th July 2022, the Modifications Committee submitted its Final Recommendation Report (FRR) with regard to Modification Proposal Mod_05_22 'SEMO Performance Reporting Frequency' in accordance with Paragraph B.17.18.1 of Part B of the SEM Trading and Settlement Code (TSC). The Modification Proposal Mod_05_22 was submitted to the Modifications Committee by the RAs on 31st May 2022 and discussed and voted on at Meeting 111 on 16th June 2022.

This Modification was raised by the RAs to propose a change to the frequency of the preparation and publication of the SEMO Performance Reports from monthly to quarterly. This modification was proposed by the RAs to streamline the publication of SEMO's monthly performance reports while maintaining transparency. The RAs are of the view that SEMO's monthly performance report could be produced and published less frequently while still

providing the most relevant and important information. Therefore, the data provided in the quarterly reports will continue to be broken down by month while also allowing more time for SEMO to gather the full set of data. Subject to approval of this modification, the first quarterly report will relate to April to June 2022 and be issued in late July/early August to allow time for the new report to be developed.

The RAs note that this Modification was recommended for approval on a unanimous basis by the Modifications Committee.

Considering the above, and in accordance with Paragraph B.17.20 of the Code, the SEM Committee directs that a Modification, as set out in Appendix 1 of FRR_05_22, is implemented on a Settlement Day basis on the first Settlement Day following publication of this Decision.

With approval of this modification, the first quarterly report will relate to April to June 2022 and be issued as soon as possible by SEMO having allowed time for the new report to be developed.

Yours sincerely,
