## Proposed Legal Text

### F.4 DETERMINATION OF LOCATIONAL CAPACITY CONSTRAINTS FOR A CAPACITY AUCTION

F.4.1.1 For each Locational Capacity Constraint, the System Operators shall, when requested to do so by the Regulatory Authorities and as required under this section F.4.1 determine the following for a Capacity Year:

- (a) the Locational Capacity Constraint Required Quantity, being:
  - (i) the minimum de-rated capacity quantity that is required to satisfy the Locational Capacity Constraint determined under paragraph C.2.2.2(c); less
  - (ii) the de-rated value of capacity that is not existing Awarded Capacity for the relevant Capacity Year but which the System Operators forecast to be operational during the relevant Capacity Year and will not participate in the Capacity Auction;
- (b) the total quantity of Gross De-Rated Capacity (Total) in respect of Capacity Market Units that are Qualified as contributing to satisfying the Locational Capacity Constraint;
- (c) the absolute value of the amount (if any) by which the total quantity determined under sub-paragraph (b) falls short of the Locational Capacity Constraint Required Quantity for the Locational Capacity Constraint;

~~F.4.1.6 Intentionally blank. If the System Operators, based on the Final Qualification Decisions, determine that the value for the purposes of paragraph F.4.1.1(c) is greater than zero, then the System Operators shall reduce the Locational Capacity Constraint Required Quantity for the Locational Capacity Constraint to the total quantity determined under paragraph F.4.1.1(b).~~

~~F.4.1.7 Intentionally blank. If the System Operators reduce the Locational Capacity Constraint Required Quantity for a Locational Capacity Constraint under paragraph F.4.1.6, then they shall notify the Regulatory Authorities.~~
