TSO Update

TSO delivered a [presentation](#) on the Capacity Market Platform Development Plan with the following updates:

Implementation of online secondary trading platform – go live 29th April/access 30th April

Above GDRC – RAs have reviewed impact assessment with proposer invited to draft new proposal

Capacity Market team developing industry survey to gather feedback on requirements that industry want considered – further information to follow & welcome industry engagement.

CMC_04_26

Proposer delivered a [presentation](#) advising that this proposal was of a housekeeping/governance nature to address the following issues -

Part 1 – missed legal drafting relating to CMC_09_25

Part 2 – qualification steps reorganised to address applications being received on or near the deadline

It was confirmed that system changes would not be required and that the process was not being changed but rather the steps were being updated to reflect the actual process.

Modification Status – Under Consultation

CMC_05_26

Proposer delivered a [presentation](#) advising that the term Indicative Demand Curve forms part of the initial auction pack but remains an undefined term in the Capacity Market rules resulting in potential compliance concerns. Point was raised that further legal drafting changes may arise from this proposal due to current Demand Curve references contained within the Capacity Market rules.

Modification Status – Under Consultation

Secretariat advised that Workshop 50 is scheduled for Wednesday, 22nd July. Also highlighted that Workshop 51 will be rescheduled from Wednesday 16th September to Tuesday 22nd September.
