Esther Touhey	Secretariat

1.1 SECRETARIAT UPDATE

Secretariat welcomed all to Capacity Market Modifications Workshop 51. It was confirmed that the Programme of Work was up to date with one proposal on the baseline. It was noted that a code update would be completed before the end of the year if RA decisions were received soon.

RA Update

The RAs gave a [presentation](#) on the outstanding Modification Proposals noting that both new and existing proposals were being progressed. It was advised that the consultation for CMC_07_26 was in process and would be finalised shortly.

TSO Update

TSO delivered a [presentation](#) on the Capacity Market Platform Development Plan confirming that CMC_07_26 was under consultation with a response due on Friday. In relation to Post Auction improvements, it was advised that the project delivery had been formalised, a technical business analyst had been assigned, and a questionnaire has been circulated to participants that will help form and shape requirements.

It was queried how the information would be published on the new platform, and what is currently available in relation to documentation required to prove awarded capacity when milestones have been reached. TSO gave assurance that the Post Auction Platform will increase transparency regarding information covered under the Capacity Market Code.

CMC_07_26

Proposer delivered a [presentation](#) on this Modification Proposal. It was noted that this proposal was part of a suite of housekeeping proposals to improve governance of the code. A background to the proposal was given and the sections of the code where deed of charge definitions were reviewed was shown.

It was advised that the introduction of a definitions section to the Deed of Charge template would align the CMC with the Trading & Settlement Code and represents good contractual practise. This would increase transparency and reduce ambiguity regarding existing defined terms.

Modification Status – Under Consultation

Secretariat advised that Workshop 52 is scheduled for Wednesday, 18th November with a closing date for submission of proposals on Wednesday, 4th November 2026.

Next Steps

1. TSOs to publish Workshop Report.
2. RAs to publish timelines for consultation.

Status as of 22 September 2026		
Modification Proposals ‘Under Consultation’ without System impacts		
Title	Sections Modified	Decision Due
