**SEM Committee Decision for the Regulatory Authorities in relation to Mod\_18\_17 (Final Recommendation Report FRR\_18\_17)**

Dear Esther

On 15 March 2018, the Modifications Committee submitted its Modification Recommendation Report with regard to Modification Proposal Mod\_18\_17 “Net Inter Jurisdictional Import Submission” in accordance with Paragraph B.17.18.1 of Part B of the SEM Trading and Settlement Code (TSC).

The Modification Proposal Mod\_18\_17 was submitted to the Modifications Committee by the Single Electricity Market Operator (SEMO) on 28 November 2017.

The Modification Proposal seeks to remove the requirement for the Net Inter Jurisdictional Import to be submitted to the Market Operator, as part of the Meter Data submission to the market, and the Market Operator’s obligation to publish this data.

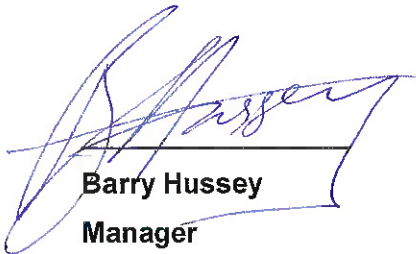

The Regulatory Authorities note that a presentation was made to the Modifications Committee meeting on 25 January 2018. The Regulatory Authorities also noted that the members of the Modifications Committee were unanimous in their view that the Modification Proposal would

better facilitate the efficient discharge by the Market Operator of the obligations imposed upon it by its Market Operator Licences.

At the meeting where the Modification was discussed, members of the Committee noted that this information was useful and it would be helpful if it was continued to be made available. At the meeting assurances were made that the information would continue to be made available through the SONI website. The Regulatory Authorities note these assurances are provided again within the Final Recommendation Report that similar data is available, and will continue to be made available, on the SONI website.

Considering the above, and in accordance with Paragraph B.17.20 of Part B of the TSC, the SEM Committee direct a Modification in accordance with in Appendix 1 of FRR\_18\_17. This Modification shall become effective on a Settlement Day basis one Working Day after the date of this letter.

Yours sincerely
