SEM Committee Decision for the Regulatory Authorities in relation to Mod_21_19 (Final Recommendation FRR_21_19)

Dear Esther,

On 7 January 2020, the Modifications Committee submitted its Final Recommendation Report (FRR) with regard to Modification Proposal Mod_21_19 'Loss Adjustment Factor Application for Interconnectors' in accordance with Paragraph B.17.18.1 of Part B of the SEM Trading and Settlement Code (TSC).

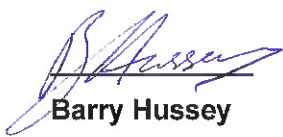

This Modification Mod_21_19 was raised by SEMO and received by the Secretariat on 12 November 2019. The proposal was discussed and voted on at Meeting 95 on 5 December 2019.

The Regulatory Authorities understand that the purpose of this Modification is to correct the settlement algebra for the application of loss factors to interconnectors in relation to Accepted Offer Quantities, Accepted Bid Quantities and Capacity Quantities for Interconnector Units.

Following the discussion at Meeting 95, the Modification was recommended for approval by all Committee Members.

Considering the above, and in accordance with Paragraph B.17.20 of the Code, the SEM Committee direct that a Modification, as set out in Appendix 1 of FRR_21_19, is implemented on a Settlement day basis with effect following delivery of the system changes required.

Yours sincerely,

A handwritten signature in blue ink, appearing to read "Barry Hussey", written over a horizontal line.
